## We have a heart for art. That's why we place it outside.

Art belongs in every home? But that is not enough for us. As, we of FLACHGLAS Wernberg believe that art also belongs onto every house. At least if it is applied on or between glass using our latest printing technologies. We make motives big - see for yourself in Bad Neustadt on the Saale.

## We give the traditional a new touch. Especially in Eindhoven.

An A mark in geometry. This is how we could reduce the realisation of "The Blob" to a common dominator. What at first sight appears to be a new building is in reality the refurbishment of a five-storey office building. And is the best proof for us that sometimes the world is a pane. And another. And another...

## There are many ways to get from A to B. The most beautiful is with sun, light and Wernberg.

How much light fits in a train? These days, Dutch passengers of the new Sprinter Lightrains can probably best answer this question. Based on an innovative window concept, the "Lightrain" is setting new standards in incidence of light and room comfort. Thanks to the bright minds of FLACHGLAS Wernberg.

## The EuroShop 2011 experience.

After five days, the greatest EuroShop ever ended on March 3, 2011 - and with success for us. This year's trade fair featured new experiences, multiple contacts, international audience and a positive mood.

## FLACHGLAS Wernberg GmbH and Glasid AG are growing together.

On January 13, 2011 we acquired a 20 percent equity stake in Glasid AG. We are now forming a strong industrial partner.

## 100 accident-free days. We celebrate.

FLACHGLAS Wernberg has set a new record! Since 1991, this result has never been achieved at the Wernberg site. We took this occasion to surprise our staff with a small thank-you, and look forward to another 100 accident-free days.
