## New digital printing system here soon!

In 2007 we decided to enter into the digital printing technology with ceramic inks. In the meantime, a large number of objects have been produced using this system while results show that the maximum print size of many requests is insufficient. Therefore, it was decided in 2011 to invest in a new GlassJet Jumbo. The GlassJet Jumbo was delivered in mid-March 2012 and is scheduled to start production in April.

Digitalsdruck mit Keramikfarben direkt auf Glas.  
Digitally printing ceramic colors directly on glass.

## At FLACHGLAS Wernberg, the customer is king. Especially when he has an Upper Castle.

Hans VIII., Knight of Neuhausen, has built the Upper Castle about 500 years ago. He, then, could not have the slightest notion of the furor caused by the late Gothic half-timbered building in 2011. Even less, of the importance FLACHGLAS Wernberg has in this context. However, we are confident that Hans would have been worth an accolade.

## The European Capital of Culture 2009 is now really worth looking at. Through our glass.

Linz changes. This is the slogan of the beautiful city on the Danube and of the European Capital of Culture 2009. In 2012 the Austrian metropolis has still a lot to offer its visitors and residents: for example with the extra large sidewall windows of the new tram. For Linz changes and FLACHGLAS Wernberg makes it possible.

## A new product on offer: OptiView™. The glass for a clear vision.

OptiView™ Protect is particularly suitable for glazing where an unrestricted view is desired. Thanks to a reflection-damping coating the reflection of monolithic panes is reduced to only 2%, whereas conventional glass has an external reflection of 8%. We can offer you OptiView™ both as laminated safety glass and insulation glass.

## Renewal of Supervisory Board. Walter Ehring is retiring.

Mr. Walter Ehring left the Supervisory Board on 31 December 2011 going into a well-deserved retirement. The businesswoman Veronika Lindner is taking his place as representative of the Mitarbeiter-Beteiligungs-GmbH. Dr. Hans Nuißl now holds the Chair. We wish to take this opportunity to thank Mr. Ehring for his excellent work!
